Indian agriculture, our pride. Also empowering farmers.

At **Avadh Agro-Tech**, We are leading agriculture tillage product manufacturing company, dedicated to revolutionizing the farming industry through innovative solutions. With a deep understanding of the challenges faced by farmers, we strive to provide high-quality, efficient, and sustainable equipment that enhances productivity and promotes soil health. Our team of experts combines extensive farming and industry knowledge with cutting-edge technology to develop state-of-the-art tillage products. From advanced Plows, Rotavators, Cultivators and Seed Drillers. Our machinery is engineered to optimize seedbed preparation, Tillage, weed control, and crop management, resulting in improved yields and reduced environmental impact. We are passionate about supporting farmers on their journey towards sustainable agriculture. Our commitment to research and development ensures that our products are at the forefront of technological advancements, enabling farmers to stay ahead in an ever-evolving industry. With a customer-centric approach, we provide personalized support and expert advice to our clients, ensuring they have the tools and knowledge to succeed. We believe that by partnering with farmers and empowering them with the right tools, we can contribute to a more efficient, productive, and sustainable future for the agriculture industry.
